

I LUV SUITS

PROGRESSIVE

In I Luv Suits, the players and the dealer receive seven cards each. The dealer qualifies with a three card, nine high flush. The player's hand is made of the highest number of cards in a given suit.

To play against the dealer, the player must make an Ante wager. After viewing their cards, to continue to play against the dealer, the player must make a Play wager equal to the Ante wager. If their hand is a six or seven card flush, a player may bet up to three times (3x) the Ante. If the hand is a five-card flush, the player may place up to two times (2x) the Ante. If the hand is a four-card flush or less, the player may place a Play wager one times (1x) the Ante. The hand with the highest number of cards of the same suit wins.

If the player's hand beats the dealer's, the Ante and Play bets win even money; if the player ties, those bets push.

RANKING OF HANDS

The highest hand is the hand with the highest number of cards in one suit, along with the highest-ranking card if the dealer and player have the same number of flush cards. A straight flush holds no value other than the value of the individual cards. A straight flush does have value for the Super Flush Rush wager.

FLUSH RUSH

The player wins on the Flush Rush spot when they are dealt a four-card flush or better. Players must place an Ante wager in order to play the Flush Rush. The Flush Rush winning wager is always paid, regardless of the dealer's hand.

FLUSH RUSH PAY TABLE

Player's Flush Rush Hand	Payout Odds
7 suited cards	100 to 1
6 suited cards	20 to 1
5 suited cards	10 to 1
4 suited cards	2 to 1

SUPER FLUSH RUSH

The player wins on the Super Flush Rush spot when they are dealt a three-card straight flush or better. The player must place an Ante wager in order to play the Super Flush Rush. The winning Super Flush Rush wager is always paid, regardless of the dealer's hand.

SUPER FLUSH RUSH PAY TABLE

Player's Super Flush Rush Hand	Payout Odds
7 suited cards in straight	500 to 1
6 suited cards in straight	200 to 1
5 suited cards in straight	100 to 1
4 suited cards in straight	50 to 1
3 suited cards in straight	9 to 1

MAXIMUM PAYOUT

The maximum aggregate payout per player during any one round is \$35,000.

Side wagers are prohibited.

I Luv Suits Poker Progressive is an optional progressive bet. The bet considers the best hand possible among each individual player's cards. When there is more than one (1) qualified progressive jackpot hand, requiring the 100% payout, the jackpot is divided equally amongst each qualifying 100% winner.

If multiple progressive payout percentage hands hit during the same round, the 100% is paid first. The progressive jackpot will then be reseeded. All other qualifying percentage payouts will be paid from the reseeded amount. The dealer will start the pay sequence from the dealer's farthest right, and continue from right to left. Multiple qualifying progressive winners other than the percentage payouts are paid according to the Progressive Pay Table.

PROGRESSIVE PAY TABLE

Player's Hand	Pay Table*
